

TrafficCAD 2000 gives you the power to produce signs in-house with state of the art design and production tools, cross platform compatibility, and a user friendly interface.

TrafficCAD 2000

Product Line

TrafficCAD 2000

The most important element to any sign is text. TrafficCAD 2000 gives you the broadest range of text composition tools to help you achieve fast, professional results exactly to government specifications. Professional production and design tools help you maximize the efficiency of your traffic sign making operations. With TrafficCAD 2000 you can design, edit, and output all from one application. TrafficCAD 2000 is Powerful, Compatible, Easy to use, and Affordable!

TrafficCAD 2000 Designer

Create designs, proposal drawings, as well as production sign orders in TrafficCAD 2000 Designer with full design and export features. This affordable package allows you to save design files for production and export designs to CAD systems with a significant cost savings.

TrafficCAD 2000 Sign Library Options

Only TrafficCAD 2000 gives you the option of having a professional MUTCD sign library that is fully changable with the click of a button. The Pro MUTCD sign libraries are created within TrafficCAD 2000 giving the user maximum flexibility over production and customization of existing signs. Also, a complete MUTCD sign library in HPGL file format is available, complete and output ready. TrafficCAD 2000 also offers a full MUTCD color bitmap (.bmp) library.

TrafficCAD 2000 Add-On Modules

TrafficCAD 2000 offers feature options to truly maximize the design and production capabilities of your operation. Add-On Modules such as Contour Cut, Routing and Engraving, PrismScan, Special Effects and Gradient Fills make TrafficCAD 2000 the most complete traffic sign making solution available today.

Cross-Product Upgrades

If you already own a traffic signmaking software and you are not satisfied, you may qualify for a cross product discount on TrafficCAD 2000.

Try TrafficCAD 2000 out for 15 days risk free and you will see how TrafficCAD 2000 can help you Maximize the Efficiency and Minimize the Costs of your traffic sign making operations.
